

The Evolution of Technology in Work and Education

Student: Eduar Orlando Bautista Rozo

Course: English for Work

Activity: GA6-240202501-AA1-EV02 – Video

Technology Evolution

- Technology is always changing.
- We use phones, computers, and the Internet every day.
- Work and study are now more digital.

From Old to New (Evolutionary vs Revolutionary)

- Old: paper, typewriters, face-to-face learning.
- New: laptops, apps, online learning.
- Technology helps us to be faster and more connected.

Cultural Changes

- We work from home more often.

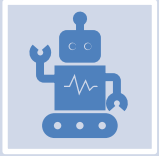

- We study online with people from other countries.

- We use social media to learn and share ideas.

Future Vision

- Technology will keep evolving.

- We will have learned new skills.

- We will have been using AI tools for our work and study.

Conclusion

- Technology is a process of evolution.

- It changes how we live, work, and learn.

- We must keep learning new tools every day.
